

Village of Thornville Public Notice:

Boil Advisory Lifted

The boil advisory issued on 11/15 for The Village of Thornville, along with all Northern Perry Water customers who receive water from the Village, due to a water main leak experienced on Thursday November 14th has been lifted.

The laboratory results came back all clear.

If you are experiencing low water pressure:

- Run your faucet for a few minutes to clear any air in the lines.
- Remove and clean faucet aerators (the screens at the ends of your faucets) to eliminate sediment.
- If you use a water softener, consult your owner's manual for instructions on flushing the system.

We appreciate your understanding and cooperation. The safety and quality of your water supply is a top priority.
